

# Argonaut

Cloud Amber's vision is to provide products that enable Traffic Managers to model, monitor and control the environmental effects of travel as well as reducing congestion to maximise the use of a limited road network. Cloud Amber's Argonaut, UTMC Command and Control intelligence, provides a window in to the transport world where ever you are.

Key features and benefits:

- **No scripting, programming or prior technical knowledge required**
- 'Uber geeks' need not apply!
- Work from control room, office or from home
- Work on the move whilst on site
- No complicated client software to install, configure and support
- No lengthy specialised training or enormous unintelligible user manuals
- Fully secure
- Fully UTMC compliant
