

# Document Manager

Cloud Amber's vision is to provide products that enable Traffic Managers to model, monitor and control the environmental effects of travel as well as reducing congestion to maximise the use of a limited road network. Cloud Amber offers a file manager application that allows users to view, download and up load files in to a central repository.

Key features and benefits:

- **No scripting, programming or prior technical knowledge required**
- Unlimited document size and quantity
- Fully integrates with corporate networks
- View documents and drawings at home, on the move or at site
- Available on desktop and PDA
